

Common transnational actions NEA 2 - MARINE LEISURE AND SOCIAL COHESION

**Common action 5.4.1
Development of events contributing to democratize water sports**

Generic action	5.4 Facilitate the event organization to democratize the access and the practice of water sports
Specific common transnational action (and number)	5.4.1 Development of events contributing to democratize water sports
Objectives of the specific action	Facilitate the practice of the small minority of the public represented in the nautical competitions. Implementation of a common referential for the democratization of the events. Make Atlantic Water Games the reference event for the Atlantic Area.
Target of the action (public, actors, sites)	People in social integration Disabled people Young people / Senior / Women
Summary description: present the contents, the various phases, ...	The common action will consist in an inventory of these events and in the development of new events aiming to democratize watersports (transmission of the calendar of events by the partners). If possible, the events organised by each partner will be open to all the partners committed in this action. It will strengthen the transnational character of the action. Each partner will have to realise a balance of its events (number of participants, impact on the practice of Watersports by socially excluded persons), on the basis of a common evaluation sheet. A common communication will be implemented on the website.
